Thank you for your interest in contributing to IEEE Technology Policy and Ethics. We invite researchers, practitioners, educators, students, and graduate students engaged in the profession of engineering, technology, and innovation management to contribute.

Submit an article for your chance to:
• Curate content to be published in IEEE Xplore®
• Have an article featured on our website
• Publish an article in the IEEE Future Directions newsletter (sent out bi-monthly to over 40,000 subscribers)
• Expand network connections
• Add to your professional portfolio
• Showcase your research and ideas
• Publish with IEEE and receive the global prestige that high-quality research deserves
• Become known as a subject-matter-expert on the topics you write about
Submissions should be written in English, and the content should promote the goal of the publication: to present articles that address policy and ethical considerations in developing new technologies. Submitted articles are edited and reviewed for acceptance to a specific issue. We reserve the right to edit the article for grammar and spelling errors.

Guidelines:

• Submissions should include the author’s bio (approx. 100-300 words)
  • Please include your name, title, current job and brief experience
• Include headshot photo in high-resolution (png/jpg format)
• Word count should be between 800-1200 (not including the reference section)
• Can be authored by a mix of IEEE and non-IEEE members.
• Maximum of 20 references
• Citations should be referenced as number and formatted as follows:
• Style of submitted manuscripts should be double-spaced, 12-point font, written in a single-column format, and submitted as a word/Google Doc.
• Ensure opening paragraph communicates your main message.
• Convey why the article topic is of high importance.
Understandability of audience
Articles should target audience — those interested in the IEEE Future Directions Initiatives, government officials, Standards Developing Organizations (SDOs) and Non-Governmental Organizations (NGOs), Policy decision makers, Technology developers, University researchers, and Industry Experts

Publishing Policy and Ethics
All articles should follow the IEEE Publishing Policy and Ethics guidelines

Article Length
800-1200 words. Look and feel of an introduction with substance but extensible. Reference section is not included in the word count

Citations
At the end of the article, please cite all sources referenced (maximum of 20 sources). Hyperlinks within the article are acceptable, but do not count as citation and still need to be included in the reference section at the end of the document. Cite and reference in IEEE style: https://www.ieee.org/documents/ieeecitationref.pdf

Pictures and Graphics
Please only use pictures or graphics that you have the right to use or cite.
Tips for Article Content and things to take into consideration:

- **Social, Economic and Cultural aspects**
  Keep political commentary to a minimum, avoid making recommendations, expose best practices, and identify opportunities for collaboration.

- **Foster New Thinking**
  Expose and share the different current geographic and technical solutions that can be brought to bear to supply affordable access and connectivity.

- **Government/Organization/ Company Agnostic**
  May mention company or organizational efforts. No direct marketing, keep content directed to ideas of technology policy, emerging enabling technologies, cleanse out commercial agendas and objectives.

- **Protect Trade Secrets Company Assets**
  Take care not to expose or reveal trade secrets or areas that may be considered core competency.
Copyright and Ethics
The IEEE Future Directions Newsletter follows the IEEE General Copyright Policies 6.3.1.2 and IEEE Copyright Policy and Procedures (from the PSPB Operations Manual) 8.1.4 B.2. All technical, educational and professional publications of the IEEE, except newsletters, but including Society and Technical Council Newsletters and e-Newsletters, are required to be copyrighted by the IEEE.

Submissions
Please submit your final article with your brief bio (100-300 words) – including details of your IEEE affiliation – and photo (headshot) to: fdPolicyEthics@ieee.org. Please use this email for any additional questions or concerns.

All incoming queries will be responded to as soon as possible.

Editor-in-Chiefs
Dr. Ali Kashif Bashir (dr.alikashif.b@ieee.org)
Dr. Stephen Jones (sjones@bsu.edu)
Questions to ask as you’re drafting the article:

• Does the article talk about the ethics and policy aspects pertaining to emerging/new technologies?
• Is the title appropriate for the articles’ contents?
• Is the content of value to the readers and targeted audience? Is the article language and layout according to newsletter style?
• Is the content technically accurate and timely?
• Is it a promotional article?
• Does the article justify the needs of the topic?
